

OS and CPU independent.
More than just a debugging tool.

Dynamic Test
DT10

Specifications

Connect Box

- Width : 60mm
- Height : 112mm
- Depth : 24.7mm
- Weight : 160g

Dynamic Tracer

- Width : 200mm
- Height : 112mm
- Depth : 24.7mm
- Weight : 500g

Power	5V
Input voltage	Hi input:2.37V or more / Low input:0.99V or less

Application System Requirements

Processor	Pentium4 2GHz or more (system of 2CPUs or more recommended)
Memory	1GB and over (2GB or more recommended)
Storage	3GB and over ; additional 100MB and over free space required during installation

Display	1024 x 768 pixels and over (1440 x 900 pixels or more recommended)
Connections	One USB2.0 port required

Hardware Accessories

Main unit Dynamic Tracer

for PC Connection USB Cable

for Dynamic Tracer AC Adapter

Relay unit between Dynamic Tracer and target equipment

Connect Box A for connecting asynchronous bus / GPIO

Connect Box B for connecting Ethernet / UART

Connect Box C for connecting asynchronous bus / GPIO / SD

Analog signal measuring unit Analog Box

*With dedicated probe attached

for Connecting GPIO Probe 8PIN

for Asynchronous bus FPC Cable

*Two cables as a set
*Shown is the cable dedicated to Connect Box A.
Cable for Connect Box C is also available.

for Asynchronous bus Attachment 48H / 56H Attachment 48V / 56V

*Two types, TSOP48 and TSOP56, are available for each.
*Shown is the attachment dedicated to Connect Box A.
Attachment for Connect Box C is also available.

USB dongle for license authentication USB Dongle

*By floating license
Unnecessary if you have concluded the contract

*Only the representative products are shown. For details, contact Heartland.
